MEMORANDUM FOR THE RECORD

SUBJECT: SSCI'er Robin Cleveland's Request for a Terrorism IR

1. Senate Select Committee on Intelligence's (SSCI) terrorism referent, Robin Cleveland, today requested that a copy of a clandestine IR on "Iraq support to terrorism" be made available to her for her information. SSCI Staff Director Rob Simmons validated and supported her request.

The IR citation she gave me was:

2. Not being familiar with specific policies and/or precedents, I asked Cleveland whether she would settle for a briefing on the report if necessary. She said she had one prior such experience with CIA and that the briefing was unsatisfactory as she had already read the IR and knew the briefing was far short of the IR's contents. Clearly, she has her back up on this and wishes to see the hard copy.
